

## Homework Projects Schedule 2016 - 2017

Please find attached the Homework schedule for this year for Key Stage 3 students.

- All students in Key Stage 3 will have a weekly core homework set in Maths, English, Science and Modern Foreign Languages.
- All other subjects set a 2 week project style homework according to the calendar below.
- These subjects will **also** set short homework tasks as and when required, for example research, preparation for tests, extending classwork tasks etc.
- Each project has an approximate 4 hour time expectation with differentiated outcomes. Students will be told the assessment criteria when the piece is set.
- All homework tasks are available on ShowMyHomework and if students need paper copies of tasks they can collect these from Pupil Reception or class teachers.
- If you have any queries please contact the subject teacher or the Curriculum Learning Manager for the department in the first instance.
